SUMMARY

Computer Science Engineering graduate (B.E., 2026) with hands-on experience in full-stack web development (MongoDB, Express.js, React.js, Node.js) and UI/UX design through two client-facing internships. Proficient in JavaScript (ES6+), Java, REST APIs, SQL, and database design. Experienced across the full development lifecycle, from Figma prototyping to production-ready components. Seeking a Software Developer role to apply strong problem-solving skills and technical foundation in a growth-oriented team

SKILLS

frontend : HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS, Responsive Web Design

Backend & API : Node.js, Express.js, REST APIs, JSON, Core Java, Spring Boot (Basic)

Database: MongoDB, SQL, MySQL, Database Design & CRUD Operations

Testing & DevOps : AWS, Azure (Basic), Oracle Cloud Infrastructure (OCI), Git, GitHub, VS Code, Postman,

Design Tools : Figma, Wireframing, Prototyping, UI Design, Canva

Professional: Strong Communication & Team Collaboration, Problem-Solving & Analytical Thinking

EXPERIENCE

Full Stack Engineer Intern — Codeblind Tech, Coimbatore

Jun 2025 – Sep 2025

- Built and shipped responsive web features using Java and REST APIs as part of an Agile team, from sprint planning through deployment.
- Connected front-end components to back-end services, debugged API issues, and joined code reviews to align with team standards.
- Optimized SQL queries that were slowing page loads, improving application performance.

UI/UX Designer Intern - Techsnapie Solutions Enterprise, Coimbatore

Aug 2024 - Jan 2025

- Delivered three client projects from initial briefs to handoff-ready Figma prototypes, running user interviews to validate design flows.
- Built a shared Figma component library that continued to be used by the dev team after internship completion.

PROJECTS

Plant Disease Detection Using Machine Learning

Tech Stack: Node.js • Express.js • Angular • PostgreSQL • KnexJS • Python • Smart Contracts • Docker

- Trained a CNN on leaf image datasets to classify plant diseases;
- Tuned the preprocessing pipeline to achieve consistent accuracy across multiple architectures

Blockchain-Based Healthcare Management System

Tech Stack : • Smart Contracts • Python

- Built a tamper-proof patient record system using blockchain, with smart contracts controlling
- Read/write access and a simple web front end for non-technical staff.

CERTIFICATIONS

- Advanced Software Engineering Virtual Experience - Walmart USA | Forage, Jan 2026
- Developer & Technology Virtual Experience - Accenture UK | Forage, Oct 2025
- Solutions Architecture Job Simulation - AWS | Amazon, Jul 2025
- Cyber Security Virtual Experience - Deloitte Australia | Forage, Aug 2025
- Oracle Certified Foundation Associate - Oracle, Aug 2023
- Google Certification (2024) | IBM Certification (2024) | Network Defense Essential, EC-Council (2023) | Linux Certification, CSI Linux (2023)
- Linux Certification | CSI Linux Aug 2023

EDUCATION

B.E. - Computer Science and Engineering

2022 -2026

SNS College of Technology, Coimbatore | Completed

Diploma - Computer Networking

2020 - 2022

PSG Polytechnic College, Coimbatore
